

SAHİL BABAYEV
Minister of Labor and Social Protection

Dear Mr.Vahid Novruzov,

I sincerely congratulate you on the occasion of 25th anniversary of the establishment of the Chamber of Auditors of Azerbaijan Republic!

The architect and founder of the independent Azerbaijani state, genius Heydar Aliyev, enriching the traditions gained in the history of our statehood with new values and political views, achieved to strengthen our independence, rebuild the country and led Azerbaijan on the path of great historical development. It is delightful that the comprehensive development strategy defined by our national leader has been successfully implemented under the leadership of President İlham Aliyev, ensuring the sustainable growth of our country and achieving the main goals and objectives. Within the framework of these reforms, which as a result Azerbaijan became the leading state in the region, an independent audit system has been formed in our country.

The development of audit in the Republic of Azerbaijan, which is recognized as a form of civilized financial control in the world, is directly related to the fact that economic relations are based on market principles and provide a broad platform for free enterprise in our country. With the integration of the country's economy into the global economic system, the role of audit increases in ensuring the transparency of financial relations and preventing economic crime and corruption. Auditing personnel also play a significant role in building a national audit system based on international experience and standards, ensuring financial transparency of the country's economy, control over the proper use of budget funds and strengthening the economic power of Azerbaijan as a whole.

Once again, I sincerely congratulate you and all the members of the Chamber of Auditors on this remarkable date, and wish you new successes in your efficiently activities for the prosperous future of our native Azerbaijan.
